Summary

4 Years of Experience

Potential Inc. [SaaS / Web & Mobile Products] — Dental Restoration lab (\$138K H1 2026 US/CA sales) · AI artwork recognition App · Art appraisal marketplace · TCG marketplace App · B2B Premier League ticket platform · Korea social discovery App [Inspired from Timeleft] · PM Dashboard (internal AI-augmented PM tool);

Kawaii Advanced Technology [ERP / SaaS / Full-stack] — JTBS ERP (Apparel), DET Bridge (Japan's first DET prep SaaS), LifeArk-nihongo & Achieve Japan LMS, Findy Job & Futurenation BD-JP Job Placement

Clients & Partners — Ivorymade, NTT Docomo, Persol Group, UNDP, ICT Division, JB TEX BD, Hameem Group

AI workflows I built in Claude Code cut average client delivery 3x (3 months → 1 month) at Potential Inc., serving JP / KOR / US / EU clients. Shipped 6 web and mobile products end-to-end in 11 months.

Proficiencies — AI-augmented delivery · End-to-end product shipping · Cross-border execution · Multi-discipline team coordination · Project budgeting + tech-stack guidance at kickoff · PM & QA dual ownership · Client & executive reporting

Experience

Jun 2025 – Present	Project Manager <i>Potential Inc.</i>  Run client kickoffs with stack guidance and budget scoping · WBS, sprint planning, daily standups · Weekly stakeholder reports · Cross-functional coordination across design, engineering, and QA · App store submissions, UAT cycles, release management · AI workflow authoring, n8n, and Notion as part of day-to-day delivery.	Remote · Full time
Feb 2024 – May 2025	Project Manager <i>Kawaii Advanced Technology & Solution Ltd.</i>  Ran 3 offshore engineering teams across BD-JP delivery · Sprint planning, daily standups, weekly client meetings with Japanese stakeholders · User-story authoring and feedback cycles · Documentation across PRD/BRD/SRS · UAT and release management for ERP, SaaS, and full-stack engagements.	Dhaka, Bangladesh
May 2023 – Dec 2024	Quality Control Specialist <i>InsideMaps Dhaka</i> Authored test cases and ran nightly regression sweeps on a real-estate 3D-tour pipeline. Worked async with the US product team.	Dhaka, Bangladesh

Aug 2022 – Apr 2023

Front-End Web Developer

Care-box Ltd. [↗](#)

Shipped React and Next.js front-ends for an eHealth product.
Built the production-code reading habit that still backs how I work as a PM today.
